WORK EXPERIENCE

Frontend Developer Intern - Go Think Digital

Sep 2024 - Nov 2024

- Crafted and optimized responsive, intuitive web interfaces with React.js and tailwind CSS, ensuring seamless user experiences across different devices and screen sizes.
- Collaborated with senior developers to create reusable UI components and integrate them into the application, improving development efficiency and maintainability.
- Participated in code reviews and bug fixes, ensuring high-quality, scalable, and well-documented code in an Agile development environment.

PROJECTS

CodeSphere - Online Code Editor

Live Demo : <https://codesphere-code-editor.vercel.app/>

Description: CodeSphere is a web-based code editor supporting multiple programming languages. It offers a seamless coding experience with syntax highlighting, code execution, and real-time output visualization. Built with React, Chakra UI, and powered by the Piston API, it provides a clean and efficient coding environment.

Crypto App

Live Demo : <https://crypto-application-react.netlify.app/>

Description: This app utilizes cryptocurrency APIs to provide real-time data and features three main pages: Crypto, Trending, and Saved. The Crypto page displays a list of cryptocurrencies, the Trending page highlights the most popular coins, and the Saved page allows users to save their favorite coins. The application also includes functionalities like concurrent search, pagination, and sorting.

Vocabulary Spark - Chrome Extension

Description: Vocabulary Spark is your go-to tool for discovering new words with ease. Each time you use it, you'll get a word along with its meaning and pronunciation. It was designed to enhance your vocabulary effortlessly!
